

FIG. 1

FIG. 2

FIG. 3

FIG. 4

FIG. 4 is a block diagram of a network system. The network system includes a first node, a second node, and a server system. The first node includes a computer client, a browser, a radio, a camera, and a pager. The second node includes a camera, a contact sensor, a smoke sensor, a controlled light switch, and a lamp. The server system includes a web server, a database server, and a queue. The first node and the second node are connected to the server system via a network. The first node is also connected to a radio network. The second node is also connected to a contact sensor network. The server system is connected to an ISP via a GCN.
